AARDENBURG

DELTA XL

OVERGROWTH AND TREE TRUNKS IN FOREST PLOTS EFFECTIVELY REMOVED

Very effective and time-saving. For professionals who want to maintain forest plots in a time- saving way. Multiple small tough hammers chop up brush and tree stumps into small soil-improving mulch. The rigid tilting frame supports the feeding of large shrubs and small trees and increases productivity. Ideally suited for owners and those working in cultivated woodland and heavily overgrown areas.

Chain-Drive

Easily works trough heavy loads with the special XPB V-belt and tensioner

2. Orbital

Experience an optimal work experience with special Aardenburg 360° orbit hammers, no hammer get stuck

3. Dual-RPM

Enjoy working with the Delta on both the front and rear of your tractor with the special Aardenburg gearbox, abled to handle 540 and 1000 RPM

4. Dual-hitch

Enjoy working with the Delta on both the front and rear of your tractor with the special Aardenburg gearbox, ensuring he rotor always runs in the righ direction

5. 2in1

Switch between grinding and mulching with integrated mulch door
